

Family Connections

What is Family Connections?

- Being a caregiver of a child with autism spectrum disorder or another developmental disability is challenging. When caregivers are connected to supports, they are more successful.
- Family Connections helps to connect caregivers of children with autism and other developmental disabilities with other families who face similar challenges.
- Family Connections also gives the children a chance to have fun and socialize with peers in a safe environment.

Who Should Attend?

- Families of children with autism or other developmental disabilities
- Caregivers who would like to meet other families who have children with special needs
- Parents wanting to learn more about supporting their child
- Parents who want to learn more about the special education process and community resources
